

ELITE TEAM MAKEUP

Your kit includes: Moon Dust glitter, and your lip color.

Not included: Your individual face make up, make up brushes, mascara, and liner and/or lashes.

Starting the look: Begin with your normal face make up.

Step 1: Apply moon dust glitter from bottom of lid to bottom of brow.

Step 2: Next apply eye liner or lashes/mascara (whichever you are more comfortable with)

Step 3: Apply lips. It is a bold color that will stay on so be careful in applying correctly. It will take 2-5 minutes to dry.

Special Notes: The lip stain is awesome and really stays put. When you are ready to remove the lip color we recommend "Garnier Skinactive micellar" or Vaseline.

No heavy glitter on the side of eyes or cheek bone. We are going for a more natural eye. We want the kids to feel beautiful, confident, and ready to rule the stage!!
